

Connect the classroom with NETGEAR WiFi 6

NETGEAR
BUSINESS | WiFi 6

Keep your classrooms connected with an education specific NETGEAR solution infrastructure.

Enhance academic learning, by upgrading to the latest and greatest WiFi 6 network technology to provide high - speed, reliable and safe access to online resources for Pupil's.

Connect the Classroom is set to run until 2025. If your school is eligible, you would've already received an email confirming this from DfE.

Reach out to solutions@pmdatasolutions.co.uk where you will be appointed a dedicated NETGEAR account manager to guide you through your connect the classroom program.

What Solutions can NETGEAR Offer the connect the classroom program?

Indoor and Outdoor WiFi 6 Access Points

Multi-Gigabit Power over Ethernet Edge Switches

High-Speed High-Capacity Core Switches

Insight Pro Cloud Management & ProSupport Licences

Why NETGEAR?

As a leading SMB networking provider, NETGEAR offers a comprehensive solution to enable the effective deployment of WiFi 6 and 6E WLANs with Access Points, Multi-Gig Switches, and Cloud-based network management.

Our portfolio of WiFi 6 Access Points (AP's) has been designed for high density deployments that deliver superior performance, reliability, and security at public sector friendly prices. The variety of AP's available provides choice of coverage area, radio configuration and connected device numbers, enabling for fully tailored WiFi solutions, all with the ability to be powered via Power over Ethernet (PoE) at Multi-Gigabit speeds, with a single cable. Individual Schools, Multi-Academy Trusts (MAT's) and managed service providers (MSP's) all benefit from the ability to remotely manage and monitor NETGEAR APs through the NETGEAR Insight management platform.
