Spectra Standard (default)

Vertical Orientation

Custom Barcode Label Order Form

Would you like the barcode sequence to follow the standard colors by number/character below or do you want to designate color by the location on the barcode?

Standard Colors (default)

Choose your own colors

Standard Colors	Numerals	Letters	Color Name
	0	A, K, U	Red
	1	B, L, V	Yellow
	2	C, M, W	Lt. Green
	3	D, N, X	Blue
	4	E, O, Y	Gray
	5	F, P, Z	Orange
	6	G, Q	Pink
	7	H, R	Dk. Green
	8	I, S	Lt. Orange
	9	J, T	Purple

Barcode character location color scheme:

Please designate the color scheme by filling in the below with the beginning barcode sequence number for the barcodes (Max of 8 alphanumeric characters PLUS the Media Indicator)

Character Position on barcode	Red	Yellow	Light Green	Blue	Gray	Orange	Pink	Dark Green	Light Orange	Purple	White
1											
2											
3											
4											
5											
6											
7											
8											
9 Media Indicator (always white)											✓

Write a check mark in the desired box for color choice ✓

* Note: Please check with your backup vendor to confirm how many characters are supported... if unknown.

** Note: Cleaning media barcode sequence must start with **CLN** and end with media indicator **LX**.
